YOUR WAY  
AROUND  
NORTH TEXAS

## NORTH TEXAS WINERIES & TASTING ROOMS

### DID YOU KNOW?

Texas is the fifth largest wine producer in the United States, with over 400 licensed wineries, and is embedded in the oldest French wineries. In the mid-1800s France lost almost 80 percent of its vines to a fungus called oidium. In Texas, Thomas Volney Munson was developing a phylloxera-resistant rootstock in a vineyard in Denison. Munson sent them some of the rootstock and the resulting grafted vines saved the European wine industry.
